(PERSONAL) LIABILITY IN AVIATION

Duration: 1 Day

Language: DE/EN

Legal processing of aviation accidents usually takes years to complete. The investigations do not only stay on the surface but go deep into operational structures and responsibilities.

This training shall give you an overview of operational liabilities, as well as of personal liabilities of employees and shall help you to understand the context of international aviation law.

Contents:

- ❖ Aviation Law Fundamentals
 - National/European Law
 - International Treaties
- ❖ Liabilities
 - National Legal Liabilities (Contractual, Civil Law and Criminal Law Issues)
 - Aviation Liability
 - Liable Persons
 - Scope of Liability
 - Cross Border Liability/ International Liability
 - Regress
- ❖ Liability of Leaders/Managers/Engineers of Aviation Organizations (DO, PO, CAMO, MO, MTO)
- ❖ Reduction of Liability Risks
