## WORKING STUDENT (M/F/D)

OUR COMPETENCE SPEEDS UP YOUR IDEA, BECAUSE YOUR VISION IS OUR MISSION!

As an innovative engineering office, we offer our customers consulting and training in aviation and technical product development. Our competence lies in developing and maintaining aviation organisations as well as in the development of safety-critical components. In the product development process, our focus is on the conception, development and verification of product ideas from through to prototype production and serial production.

### Your Day to Day:

- ❖ As part of our team you work with us on new product ideas, product developments and their prototypical implementation.
- ❖ We use you according to your level of knowledge and studies in all phases of product development.
- ❖ In an innovative start-up you look outside the box and get a deep insight into all entrepreneurial areas.

### Your profile:

- ❖ You are studying in one of the following or comparable subjects: engineering, computer science, industrial engineering
- ❖ Safe handling of MS Office.
- ❖ Ability to work in a team, as well as independently
- ❖ Good communication skills.
- ❖ Resilience and flexibility.
- ❖ Fun to familiarize yourself with new topics.
